Citizenship: Netherlands

Summary

With 18 years of hands-on experience in the software industry, I've seamlessly transitioned through diverse roles, including Senior Software Engineer, Tech Lead, Architect, DevOps Engineer, Scrum Master, Technical Product Owner, and currently, Engineering Manager.

My career journey reflects a deep understanding of software development lifecycle, coupled with leadership expertise in guiding multifaceted projects from conception to successful delivery. I bring a proven track record of driving innovation, fostering team collaboration, and aligning technical strategies with business objectives, consistently achieving exceptional results
