Mukund Katpatal

Tech talks initiative has started in 2019 in Gdansk as a part of knowledge sharing and innovation support concept. In 2020 we were able to deliver 5 topics across Poland, Netherlands and Sweden. One of the topics was 'Flare – Shared UI Component' presented by Mukund Katpatal. Mukund, it was great to hear you and learn from you.

Great Kudos for Mukund Katpatal for the engagement, expertise and valuable input.
